

**Ninth International Conference On Advances In Computing, Communication
and Information Technology - CCIT 2019**

S. NO.	PAPER TITLE	PAGE NO.
1	System Design Of Multi Lingual Mobile Rapid Sentence Reading	1-4
2	Joint Distance And Azimuth Angle Estimation Using An Uwb- Based Indoor Localization System	5-9
3	Intelligent Technique Of Constructing Exact Statistical Tolerance Limits To Predict Future Outcomes Under Parametric Uncertainty For Prognostics And Health Management Of Complex	10-27
4	Impact Of Arq On The Performance Of Underwater Acoustic Mimo Mobile Networks	28-31
5	Understanding Is Management In Smaller Companies	32-36
6	Simulation Of Electron Beam Welding Of 316l Stainless Steel Thin Plates	37-42
7	Software For Electron Beam Melting Simulation	43-47
8	Ethical Conduct Of E-Learners And E-Instructors In Blended Learning Approach At The University Of Jordan	48-55
9	Deep Reinforcement Learning Based Traffic Control System	56-60
10	Collision Avoidance And Dynamic Slot Scheduling In Multi-Hop Tdma Based Ad-Hoc Networks Using Genetic Algorithm	61-67

11	Smart Customer Care Using Ai-Based Approach	68-73
12	Time Series Model For Predicting Ground-Level Ozone	74-79
13	Best Practice Fundamentalsin Smart Grids For a Modern Energy System Development in Jordan	80-86
14	A SOLUTION OF THE VOLTERRA EQUATION	87-90

$$f(x) = g(x) + \int_0^{x^n} k(x,t)f(t)dt$$
