

2nd International E-Conference on Advances in Engineering, Technology and Management - ICETM 2020

S.No	Title	Page No.
1	Influence of the stall torque on a vibro-impact system with non-ideal excitation	1-6
2	Digital Technology Praxis and Sharing Economy in the Hospitality and Tourism Industry	7-11
3	Cobb-Douglas Stochastic Frontier Production Approach: A Study Case Of Mango Production Efficiency in Mekong Delta, Vietnam	12-16
4	Analysis of elderly's needs and use patterns of community facilities	17-21
5	Teachers' Influence on Individuals' Postgraduate Educational Aspirations	22-25
6	Interracial Interaction and Social Self-Concept	26-28
7	Infrared Burner with Increased Firing Rate and High Surface Temperature	29-34
8	Influence of Train Speed on the Dynamic Behavior of the Bridge-Train system	35-41
9	Critical Implementation Factors for Cloud-Based Enterprise Resource Planning in the Nigerian Maritime Logistics Chain	42-49
10	A Simple Sequential Data Protocol for IoT Applications	50-54
11	Application of a Building Dynamic Simulation in the Development of Horizontal Shading Device Passive Solution in an University Canteen	55-60

12	Numerical Study of a Surface Confluent Jets Ventilation System Applied on a Virtual Occupied Chamber	61-67
13	Numerical Simulation of Underground Thermal Energy Storage Application in University Buildings in Summer Conditions	68-72
14	Study of Stress and Interpersonal Relationship with Indian Music Therapy acting as a Mediator – A Case Study of Kolkata, India	73-88
